

BEFORE YOUR ROOFING SUPPLIER FADES AWAY

Ask Some Questions About Clean COLORBOND™ Steel

New replacement section with Clean COLORBOND™ steel.

Old section of roof. Local pre-painted galvanised steel.

DOES YOUR ROOFING MATERIAL MEASURE UP TO THIS:

- ✓ Keeps its colour for much longer than others
- ✓ 30 years of international testing
- ✓ 10 years proven performance in South Africa
- ✓ Durable oven baked paint system for superior colour performance
- ✓ Hi tech paint system designed and approved by BlueScope Steel
- ✓ Heat reflective paint technology
- ✓ Available in 12 unique colours
- ✓ ZINCALUME® steel base for a longer life
- ✓ Durable, strong and lightweight
- ✓ Manufacturers warranty available upon application

For a pre-painted steel roof that keeps its colour longer and lasts up to four times longer in harsh coastal and industrial conditions, Clean COLORBOND™ steel is the roofing material of choice of architects and other building professionals.
